Miss Sadie American, of Chicago, National corresponding secretary, read a report of her year's work. Part of it follows:

For the Jewish woman the month of September, 1833, brought the first conscious self-expression in the Jewish Women's Religious Congress. The right of this congress to a place in the sacred chambers of memory rests not in the fact of its phenomenal success so much as in the fact that in passing it left as a heritage the child born in its last moments, and with its dying breath named the National Council of Jewish Women, an organization of workers pledged to bring about closer reliations among Jewish women, to furnish by an organic urion a medium of communication and a means of prosecuting work of common interest to further united efforts in behalf of social reform by the application of the best philamthropic thought. In October, 1894, was issued the first call to organize. Naturally, Chicago was the first to respond. Then followed thirteen sections, as they were called, to May, 1894, with 1,224 members, and fourteen additional up to date, making in all fifty-one sections and about 4,000 members. The programme of work provides that small neighborhood circles for study of religion shall be formed. Of such there are eighty-seven, with 1,500 members. For the pursuit of this study libraries of Judalaca have been formed in five cities. Interest in religion, in Judaism, in the Sabbath-school, has been greatly increased by the Council. Fourteen mission schools have been opened and maintained, and another is projected. While no stress has been laid on active philanthropic work, the sympathy of our members for those less fortunate than themselves has expressed its if in thirteen sewling schools, two girls clubs, one night school, two kinderpariens, one complexions have been opened and maintained, and another is projected.
